

Own your identity

Investor proposal

Spring 2022

		<p>Dear Investor,</p> <p>We are facing a dawn of change. Web3 is upon us, inviting us to pioneer a new virtual world of decentralization, individual empowerment, and the ever-critical need to own our identities.</p>	<h1>Welcome to the IAMX family</h1> <p>IAMX will not only ride the wave of this new movement, but will help shape and define it. We aim to be the first and most secure provider of Self-Sovereign Identity (SSI) on the blockchain that also incentivizes consumer behavior through revenue sharing.</p>	
				
			<p>We invite and welcome you to be part of this revolution as a member of the IAMX investor family. In this deck, you'll better understand our vision, purpose, plans, and how your investment will benefit the project and maximize your return.</p>	<p>As you review the pages in this deck, we hope you will feel the excitement and promise the future will bring us all. The question is not whether this new world will happen, but what role will each of us will play in it. Please join us, so we can define the future together.</p>
				<p>Warm regards,</p> <div>   </div> <div> <p>Tim Heidfeld</p> <p>Tim Brückmann</p> </div>

Intro			<p>Own your identity</p> <p>An opportunity to realize the shift of identification power from centralized entities to the individual.</p>	
			<p>Identity</p>	
		<p>Sovereign</p>		
	<p>Self</p>			
The				

Intro		<p>Self-sovereign identity (SSI) is a model for managing digital identities in which an individual or business has sole ownership over - and control of - their personal data.</p>	<h1>What is SSI?</h1>	
			<p>Individuals with self-sovereign identity can store their data to their devices (i.e. a digital or crypto wallet) and provide it for verification and transactions without the need to rely upon a central repository of data. With self-sovereign identity, users have complete control over how their personal information is kept and used.</p>	
				<p>The IAMX difference</p> <p>IAMX improves upon the SSI model, by employing and adhering to the highest security standards, and by incentivizing and rewarding identity holders as they make and complete transactions with their digital identity.</p>
				<p>6</p>

The era of your identity serving as the product, controlled and capitalized by Big Corp is coming to an end.

We are the shift

The new dawn of decentralization is here.

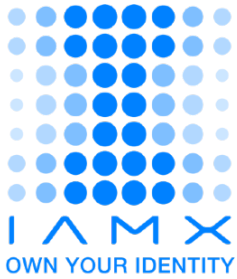

Transparency and individual sovereignty based on superior blockchain technology means you can take back control. You are a free agent, the protagonist of your identity, and the beneficiary of its value.

With IAMX, you can move about the web seamlessly and securely as you move about the real world. **IAMX is your next-generation passport!**

Intro			<div>The problem</div> <div>For individuals</div> <div>The Internet makes life easier for you. Yet, it also:</div> <div>01</div> <div>Commercializes your identity</div> <div>The Internet sees you as a product that can be sold.</div>	<div>For businesses</div> <div>The internet gives a business access to global markets, but at the cost of:</div> <div>01</div> <div>The high price of onboarding</div> <div>The cost of onboarding a new client with KYC is between \$10-\$15 USD. Additionally, many potential customers abandon lengthy KYC processes, resulting in a loss of potential revenue.</div>
			<div>02</div> <div>Punishes individuals without an identity</div> <div>1.4 billion people in the world do not have a state-recognized identity. 50% of women in developing nations have no identity. Without an identity, a person is unable to make legal binding contracts which are needed for mobile subscriptions and banking.</div>	<div>02</div> <div>Potential fraud</div> <div>Businesses that depend upon subscription-based payments can experience significant loss of revenue through identity fraud.</div>
			<div>03</div> <div>Hoards the value of your identity</div> <div>The Internet treats your identity as a commodity, and refuses to share the value of your own identity with you.</div>	<div>03</div> <div>Costly data storage</div> <div>Data protection and privacy regulations (such as GDPR) make the storage of personal data a costly hassle that most businesses choose to avoid.</div>
			<div>04</div> <div>Promotes redundancy</div> <div>You are constantly required to fill out or register to buy a product or a service.</div>	
				<div>9</div>

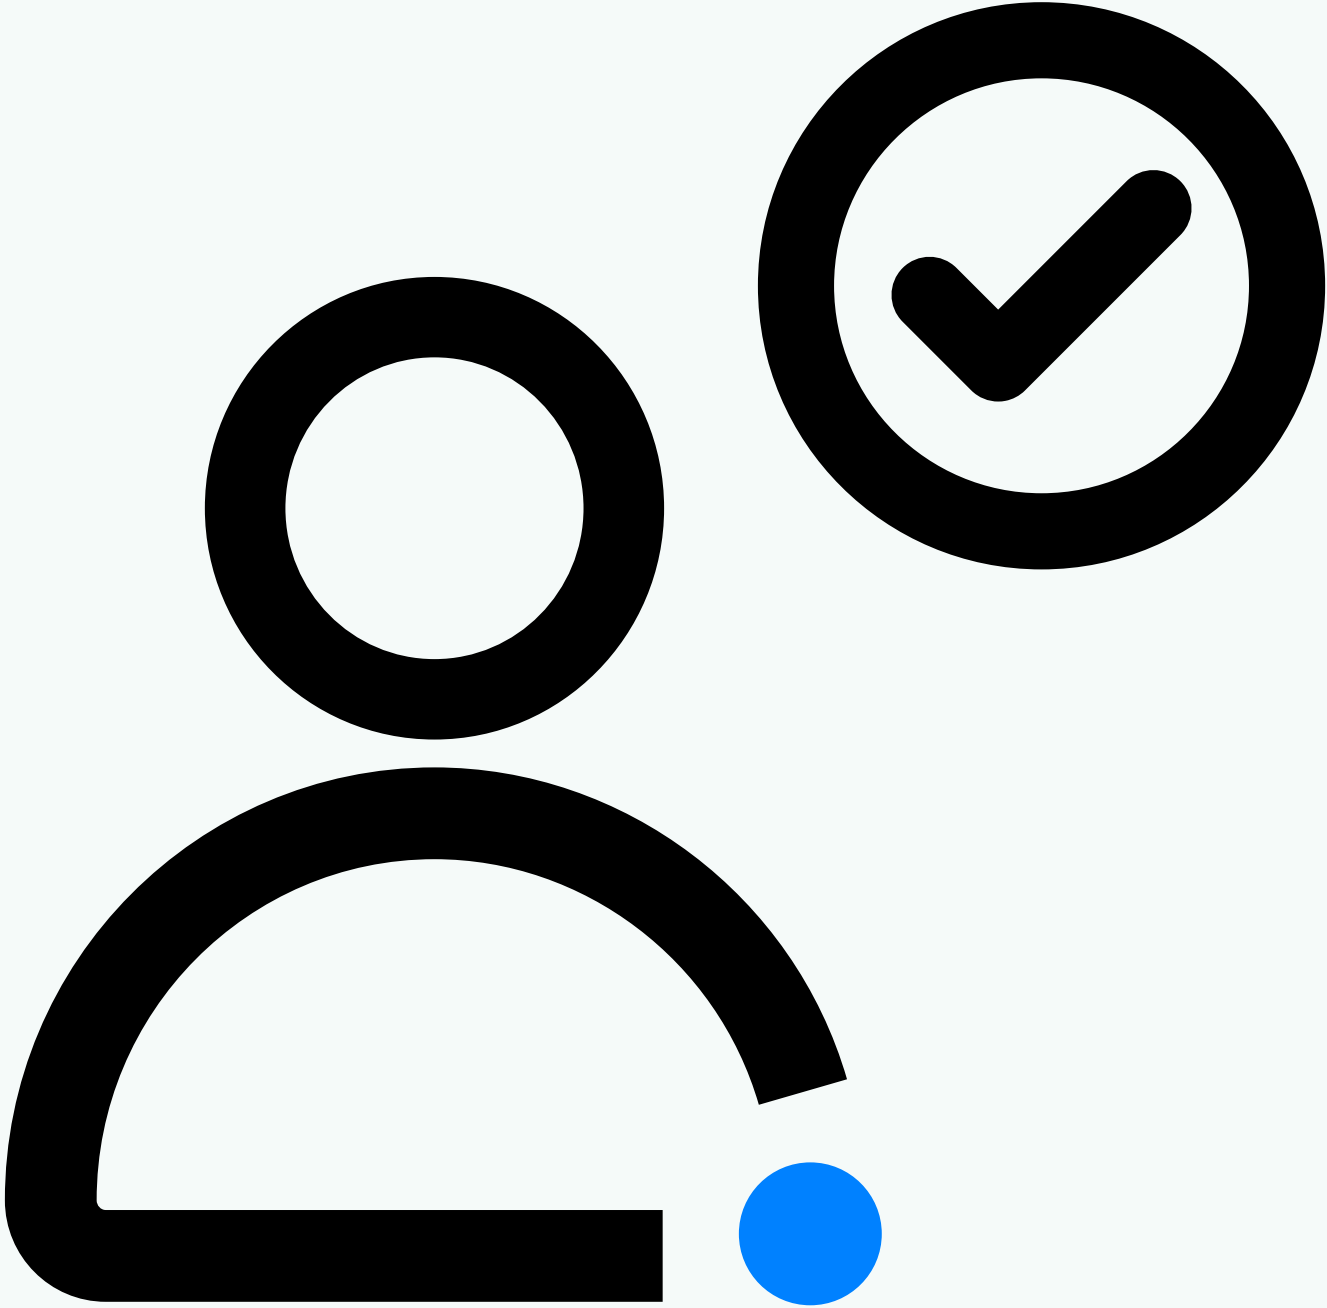

Intro		The solution	
		For individuals	For businesses
		<div>01</div> <div>Benefit from the value of your identity</div> <p>IAMX’s unique SSI layer enables you to own your identity – and its value – by harvesting revenue and savings through offers and incentives within the IAMX ecosystem.</p>	<div>01</div> <div>Cut onboarding costs</div> <p>The cost of onboarding a new customer through the KYC process can be between \$10-\$15 USD. IAMX eliminates these costs, offering consumers the ability to register and authenticate immediately.</p>
		<div>02</div> <div>Give an identity to the unidentified</div> <p>IAMX is installing and testing physical biometric identity terminals in areas of the world where the need is greatest. These terminals enable a person without an identity to register for and create a digital identity that is verified by a 3rd party state-trusted verifier.</p>	<div>02</div> <div>Prevent conversion breaks</div> <p>IAMX significantly reduces the amount of drop-off (customers who start - but don’t complete - the KYC and/or purchasing process) thanks to its simple 1-click solution for transferring data.</p>
		<div>03</div> <div>Enjoy the simplicity and security of 1-click authentication</div> <p>No more filling out forms every time you visit a new website. Just click the IAMX button and the required data is automatically and securely verified via Zero Knowledge Proof.</p>	<div>03</div> <div>Eliminate fraud</div> <p>Fraud causes large losses for businesses relying upon subscription-based payments. IAMX is the solution to the fraud problem by making use of verifiable credential container sets.</p>
	🧘		<div>04</div> <div>Avoid costly data storage</div> <p>GDPR and other similar measures are making storage of personal data a costly hassle. With IAMX, businesses no longer need to store personal identifiable information, as it is stored in the consumer’s wallet.</p>

Intro			<h1>What is IAMX?</h1> 	<p>IAMX is the first Self-Sovereign Identity (SSI) solution provider to reward identity holders, incentivize consumer activity, and comply with the strictest security standards.</p>
		<h2>What is SSI?</h2> <p>SSI is your digital identity that you own. Only you hold it, and only you decide who gets to “see” it and what of it they get to see.</p>		<p>* IAMX is interoperable with and accredited by W3C</p> <p>W3C and IAMX are working together to ensure a comprehensive, yet efficient and scalable SSI solution to serve the entire world.</p>
			<h2>How is SSI made viable?</h2> <p>SSI is made viable through three core technologies:</p> <ul style="list-style-type: none"> • Blockchain technology • Verifiable credentials • Decentralized identifiers (DID) 	
				<p>* The World Wide Web Consortium (W3C) is an international, not-for profit organization that has been pioneering the development of internet technology since its founding in 1994. They are responsible for developing standards on everything from HTML5 to CSS2 and more.</p>

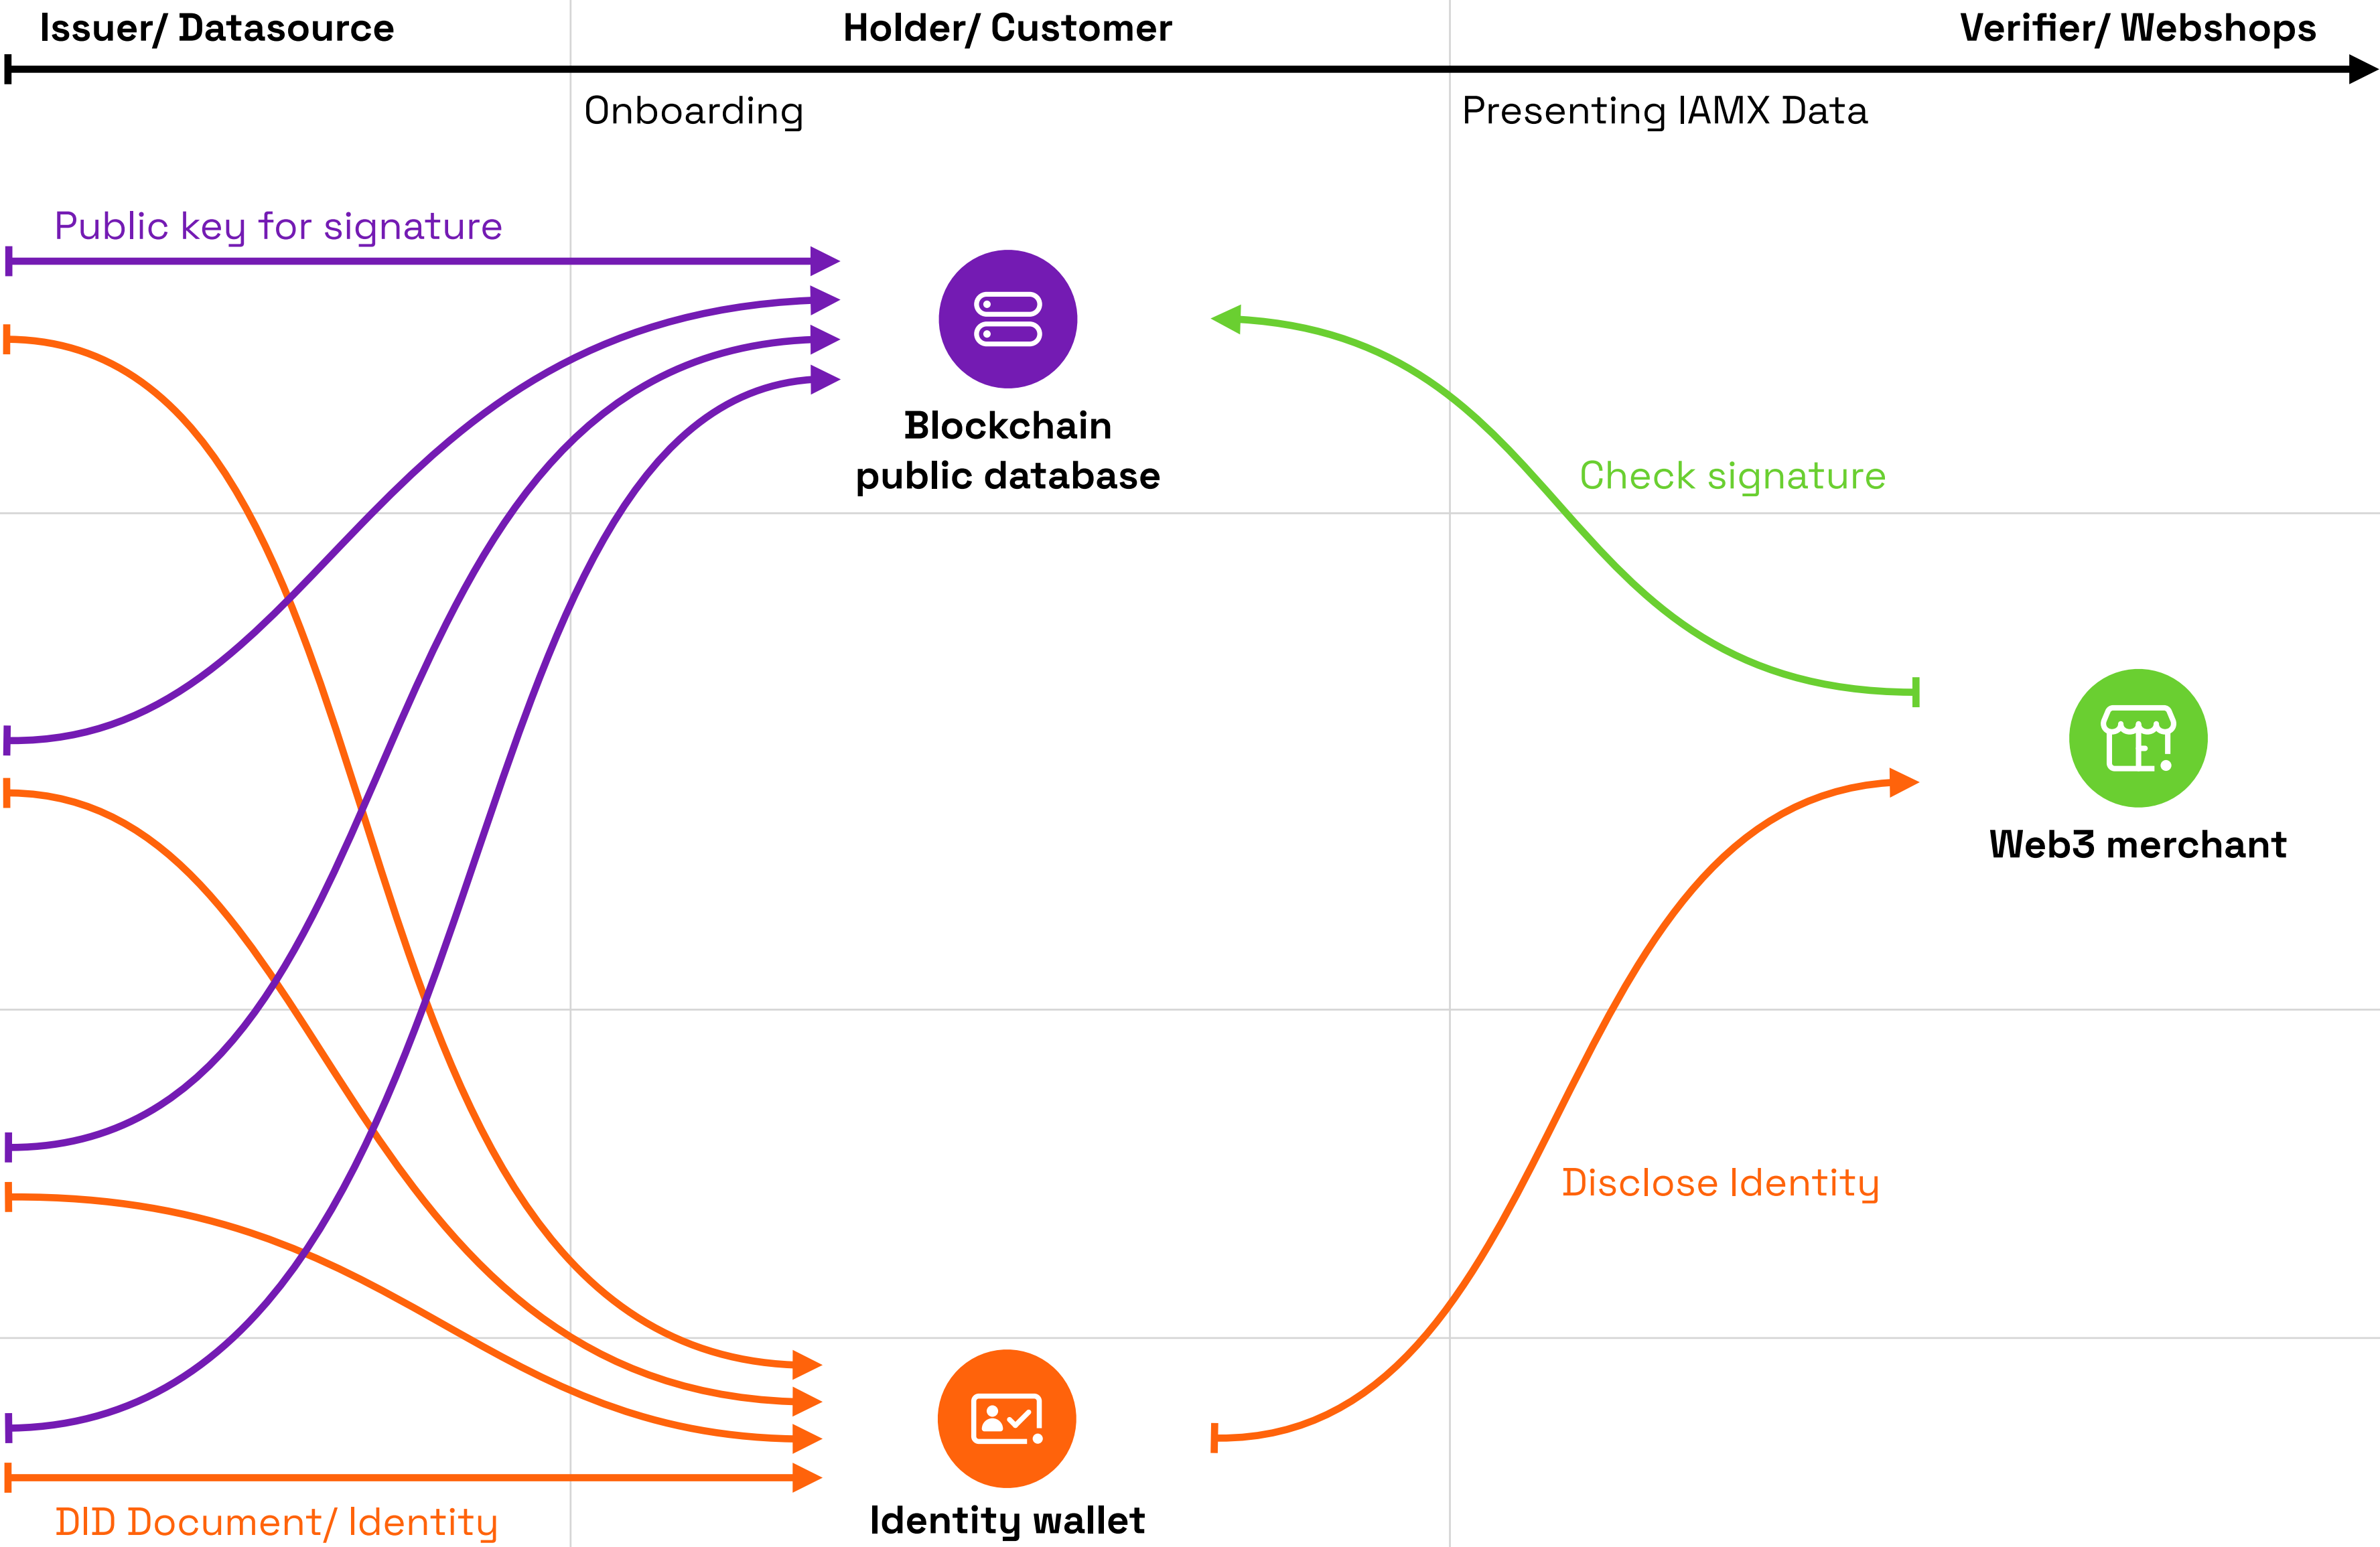

<div data-bbox="13 562 66 707" data-label="Page-Header"><p>Intro</p></div>			<div data-bbox="1206 13 1772 230" data-label="Text"><p>IAMX is adding the identity layer to the internet</p></div>	
<div data-bbox="13 877 166 1056" data-label="Image"></div>		<div data-bbox="639 1095 1082 1181" data-label="Text"><p>IAMX is the world's first web3 solution to:</p></div>	<div data-bbox="1206 1249 2039 1686" data-label="List-Group"><ul style="list-style-type: none">• Provide the most secure Self-Sovereign Identity (SSI)• Utilize and manage pre-authenticated data• Maximize interoperability through a true Inter-Chain solution with 43 Ledgers• Be certified by W3C• Reward identity holders with revenue generating opportunities</div>	<div data-bbox="2382 174 3015 1028" data-label="Image"></div>
				<div data-bbox="3272 1832 3312 1857" data-label="Page-Footer"><p>12</p></div>

Intro			Establishing identities	
		Biometric Identity Gateway Terminals	<p>These terminals allow users to:</p>	
		IAMX has created multiple physical terminals designed to help individuals without an identity obtain one. Testing is currently underway in areas where the need is greatest. As testing continues and proves successful, additional terminals will be implemented.		<ul style="list-style-type: none"> • Create a biometric ID (face, iris, and fingerprint) • Create a new wallet • Modify an existing wallet, recover seed • Edit an identity, including uploading certificates and licenses to their IAMX ID wallet

Intro		<p>How will IAMX attract, gain, and maintain users? In addition to the highly secure method of storing your identity, individuals will want to use IAMX for financial reasons as well.</p>	<h2>Onboarding users to IAMX</h2>	
			<p>For example, businesses that rely upon authenticated users or consumers are partnering with IAMX to sell subscriptions to their services through the IAMX terminals and platform. Because of this affiliate model, IAMX becomes a marketplace, connecting services to consumers, offering discounts to consumers for subscribing through the IAMX platform.</p>	
				<p>IAMX is already partnering with several large telecom companies to sell telecom subscriptions through IAMX. The founders of IAMX has more than 20 years of experience in the mobile telecommunication industry.</p>

Onboarding users to IAMX

Intro

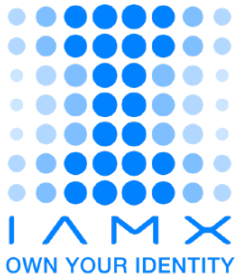

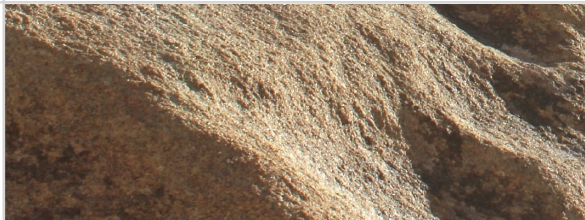

The IAMX ecosystem

& how it operates

The 1-click IAMX SSI solution operates within a larger IAMX ecosystem designed to create instant revenue streams benefiting all parties involved.

- The IAMX-factor
- How IAMX works
- The IAMX revenue model
- How all parties win within the IAMX

The IAMX ecosystem		<p>It's time to say goodbye to the era of Big Corp being the sole winner in eCommerce, profiting off you and your identity. The IAMX-factor means everyone wins.</p>	The IAMX-factor	 to win
			you	<p>The IAMX-factor means you win by:</p> <ul style="list-style-type: none"> • Taking back the control of your identity • Earning financial gains and savings • Saving time
		for		<p>The IAMX-factor means business of all sizes win by:</p> <ul style="list-style-type: none"> • Acquiring and maintaining more customers • Capturing increased revenue • Maximizing savings through cost and fraud elimination
	time			
It's				

The IAMX ecosystem		How IAMX works		
		<div>01</div> <div>Verify your pre-authenticated data.</div> <div>This includes government issued IDs, credit reports, and other personally identifying information (PII).</div>	<div>02</div> <div>Store and manage your identity in your wallet.</div> <div>IAMX enables you to include your pre-authenticated data and other data such as payment information in your favorite crypto wallet.</div>	<div>03</div> <div>IAMX stores your wallet address on the blockchain.</div> <div>With your wallet address on the blockchain, IAMX can reference (but not see) your identity for any transaction requiring your information.</div>
				<div>04</div> <div>Register or authenticate with a 1-click process.</div> <div>Through the use of the IAMX Chrome extension or mobile app, you can register or authenticate on any website or app with a single click.</div>
				
				Only YOU have access to - and control of - your data.

Exemplified

The merchant's perspective:

Win

- Saves KYC onboarding costs
- Increases conversion rate by a factor of 2.5
- Eliminates fraud and the hassle of storing personal data
- Strongly increases ROI of marketing investments and customer acquisition

The SSI & publisher's perspective:

Win

- Creates revenue streams
- Increases IAMX token use and burn rate providing passive income for its private sale investors.

The verifier's perspective:

Win

- Creates commission based revenue streams every time SSI backed by the verifier's pre-authenticated data is used in the sales processes.
- Increase in profit and a competitive edge against competitors for offering customers a SSI solution.

The customer & holder's perspective:

Win

- Maintains control over identity
- Saves time and money with 1-click registrations and purchases
- Trusts in the security of their identity

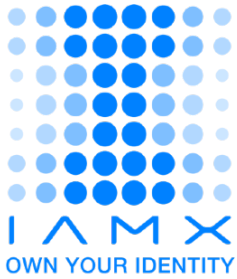

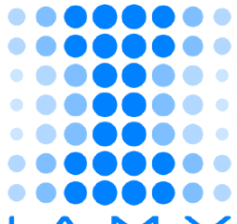

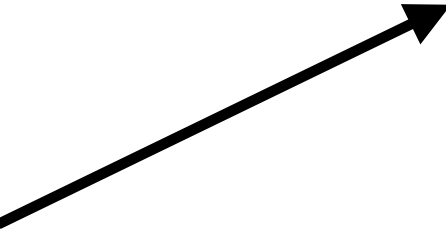

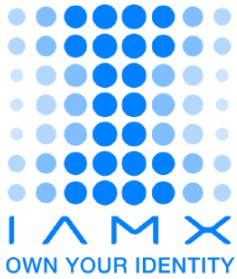

The IAMX opportunity

We are standing at a critical moment in time. Web3 is about to explode, beckoning us all to join the new world of metaverses, wallets, and full integration with the internet. The need for digital, secure, and decentralized verification has never been greater.

- The IAMX-market
- The IAMX opportunity
- The IAMX reach and impact

The IAMX token

The IAMX token is designed to reward early investors, multiplying their allotment by 12x, based on the Fibonacci replicator algorithm.

The utility of the IAMX token is to create and verify identities and to enable the 1-click fulfillment.

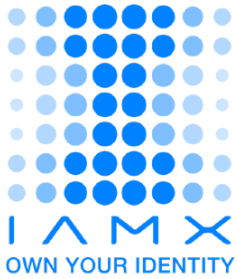

- Token demographics
- Token distribution
- Fibonacci tokenomics

Purchaser receives 25.000 IAMX Token with a linear vesting period of 25 months, meaning that 1.000 IAMX Token can be claimed monthly via the IAMX Delegation Center. Vesting is technically administered via the IAMX smart contract.</div>
			<div>Community</div> <div>Amount: 26 million (1%)</div> <div>Condition: Delegate to IAMX Pool.</div>	<div>Innovation</div> <div>Amount: 25 million (1%)</div> <div>Condition: Contribute to development of further business areas and revenue streams.</div>
	<div>  </div>			
				<div>28</div>

<div>Fibonacci Tokenomics</div>		<div> <div></div> <div> <div>* The Fibonacci sequence was discovered by studying population growth. The Fibonacci numbers appear unexpectedly often in mathematics and in nature.</div> </div> </div>		
<div>  </div>			<div> <div>IAMX uses the Fibonacci sequence to:</div> <ul style="list-style-type: none"> • Ensure balance of supply and demand (trigger event = usage) • Reward the first purchasers of the IAMX token (capitalist reward) </div>	<div>  </div>
	<div> <div>* </div> </div>			<div> <div>IAMX leverages the „Darwinian quantity equation“ in combination with the Fibonacci sequence to ensure the value and quantity of tokens achieve (and maintain) the right ratio for a healthy economy as a whole.</div> </div>

		IAMX token generation	Fibonacci sequence	Action	Benefit to first purchasers	Amt. (Bn)	Total (Bn)	Outcome
		1	1	1 token generation 1 is used	Purchaser receives 1 additional token Generation 2	2.75	2.75	Burn
		2	1	1 token generation 2 are used	Purchaser receives 2 additional token Generation 3	2.75	2.75	Burn
		3	2	2 token generation 3 are used	Purchaser receives 3 additional token Generation 4	2.75	5.50	Burn
		4	3	3 token generation 4 are used	Purchaser receives 5 additional token Generation 5	2.75	8.25	Burn
		5	5	5 token generation 5 are used	No benefit	2.75	13.75	Live forever

<div>Fibonacci Tokenomics</div>			<div>The token that keeps on giving</div>	
		<div>The IAMX Gen1 tokens are unique in that as you sell them and they’re being used they generate more IAMX tokens back into your wallet that you can sell.</div>		<div>Imagine the IAMX Gen1 token as a seed.</div> <div>You hold those seeds until the time is right for sowing (read selling) them in the IAMX Marketplace that is scheduled for Q2 2023 where they can be sown in fertile ground consisting of companies using the IAMX verification in their KYC processes. Your first harvest takes place when your token is used in a verification process generating first 1 more token, then as that is sold and used it generates 2 more, then 3 and then 5. This allows you to harvest 11 times more from that initial seed. So it is truly the token that keeps on giving!</div>
			<div>1 IAMX Gen1 token = in total 12 IAMX tokens, all for you to sell or use.</div>	
				

<div data-bbox="0 0 83 718" data-label="Page-Header"> <div>Fibonacci Tokenomics</div> </div>			<div data-bbox="1196 395 1969 701" data-label="Text"> <p>IAMX economists employ the Fibonacci sequence for sustained, strong token performance.</p> </div>	<div data-bbox="2179 90 3215 1103" data-label="Image"> </div>

				<div data-bbox="2049 1270 3032 1508" data-label="Text"> <p>Market equilibrium is when the quantity of supply equals the quantity demanded by consumers. When market equilibrium is achieved, the token price is stable, reducing the volatility of the token. This quantity is referred to as the equilibrium quantity.</p> </div>
				<div data-bbox="3258 1829 3312 1859" data-label="Page-Footer"> <div>32</div> </div>

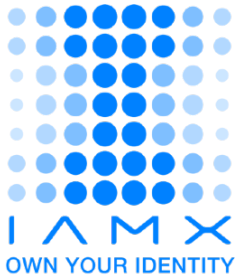

The IAMX investment

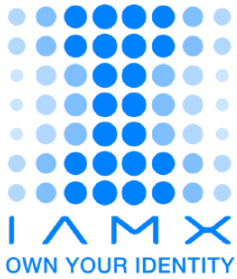

Experienced investors in the seed and pre-sales of a project are eager to purchase tokens at the lowest possible price. In addition to being rewarded with the lowest token prices, IAMX offers a significant benefit to investors by enabling first purchasers a maximum of 12x more tokens based on the Fibonacci replicator algorithm. This makes the strike-price in the private sale an even more attractive proposition.

Token sale strike pricing •
