ADAmail

YOUR EMAIL IS YOUR NFT

Login with your wallet only.
No more passwords needed.

Increase Email storage data volume by collecting several passes in your wallet.

Example: 2 Base Passes = 2 x 500 MB = 1.000 MB Email storage data volume jointly for all your x@adamail.me.

If you **sell your NFT** (example: win@adamail.me), you keep all the Emails until this date, future Emails to this alias are sent to the new owner of the NFT.

Privacy and security login: You can only login to your Email account if you have the NFT in your wallet. This login mechanism is only active, if you connect with your wallet.
